

My Name \_\_\_\_\_

# My Bug Book

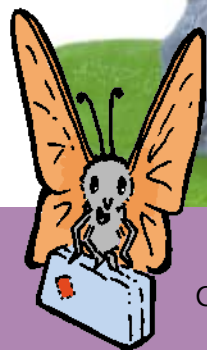

## Materials:

Paper  
Scissors  
Crayons or markers

Fold and cut paper as shown.

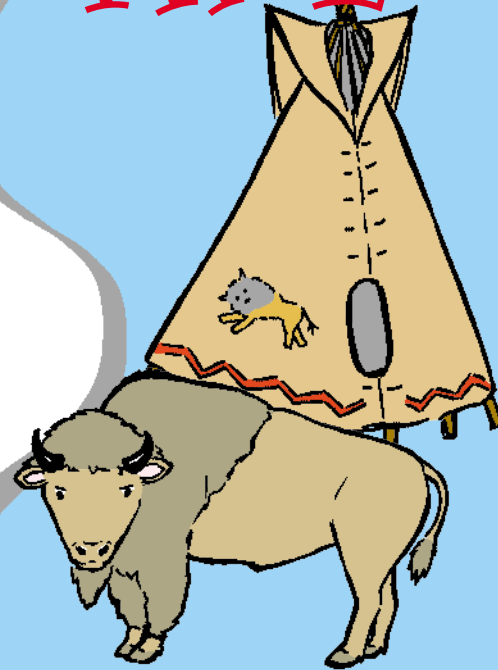

Take your book outside and draw the insects you find.

**Wild Fact** Monarch butterflies and dragonflies are the only insects that migrate. They fly hundreds of miles!

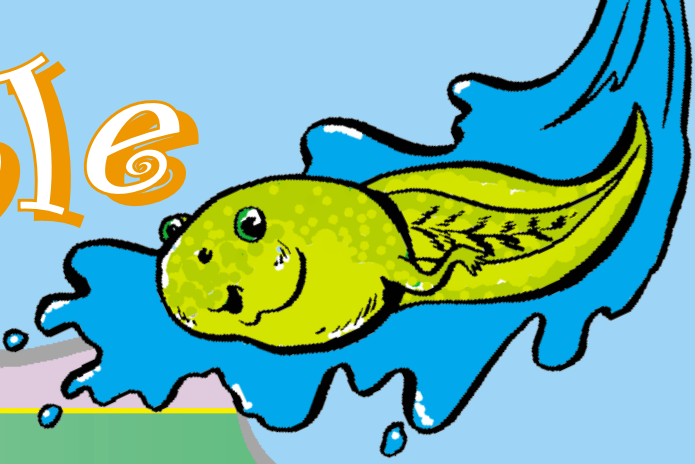

BACK IN  
*TIME*

Buffalo once lived on Missouri prairies. Native Americans hunted them for food and tools. They used skins for clothing and shelter.

1  
SUMMER

# Tadpole

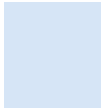

Circle the animals that are insects.

MISSOURI DEPARTMENT OF CONSERVATION KIDS' CONNECTION

## Prairies THEN and NOW

Circle the animals that are in both pictures.  
How did the prairie change?  
What do you think the next picture would show?
